**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
Trailhead Institute
Denver, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of **Trailhead Institute** (a nonprofit organization), which comprise the statement of financial position as of December 31, 2018, and the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated September 15, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Trailhead Institute's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Trailhead Institute's internal control. Accordingly, we do not express an opinion on the effectiveness of Trailhead Institute's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Trailhead Institute’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE
AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

Board of Directors
Trailhead Institute
Denver, Colorado

Report on Compliance for Each Major Federal Program

We have audited **Trailhead Institute's** compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Trailhead Institute's major federal programs for the year ended December 31, 2018. Trailhead Institute's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, contracts, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Trailhead Institute's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of *Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Trailhead Institute's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Trailhead Institute's compliance.

Opinion on Each Major Federal Program

In our opinion, Trailhead Institute complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2018.

Report on Internal Control over Compliance

Management of Trailhead Institute is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Trailhead Institute's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Trailhead Institute's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of Trailhead Institute as of and for the year ended December 31, 2018, and have issued our report thereon dated September 15, 2020, which contained an unmodified opinion on those financial statements.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE A – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Trailhead Institute under programs of the federal government for the year ended December 31, 2018. The information in the Schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Trailhead Institute, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Trailhead Institute.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
2. Trailhead Institute has elected to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

TRAILHEAD INSTITUTE
SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS
FOR THE YEAR ENDED DECEMBER 31, 2018

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Evidence NOW Southwest – CFDA# 93.226

2017-001

Condition: The Organization did not ask for, or examine, audit reports from their subrecipients. As a result, they were unaware of whether pass-through funding was listed properly on their subrecipients' SEFA (Schedule of Expenditures of Federal Awards) and didn't know whether there were any audit findings that should be investigated.

Recommendation: It was recommended that contracts with subrecipients should have this requirement. When screening subrecipients, it would be appropriate to ask whether they expect to meet, or have met, the threshold for obtaining an audit under the Uniform Guidance. As part of the monitoring process, these audit reports should be submitted and reviewed.

Current Status: 2018 Recommendation Follow-up: Contracts with subrecipients have met this requirement. When screening subrecipients, Trailhead has asked whether they expect to meet, or have met, the threshold for obtaining an audit under the Uniform Guidance. As part of the monitoring process, these audit reports have been requested, and reviewed upon receipt.

Action: Trailhead Institute had taken the following actions to correct the deficiencies and produce improvements:

1. Staff will be trained on requirements for documentation of subrecipients based on Section 200-231 of Uniform Guidance (completed on May 1, 2019 and May 15, 2019). Finance Manager completed reading a course on Uniform Administrative Regulations for Federal Grants.
2. Tested tracking subrecipients through a contracting database including access to their audit reports, when necessary (started in May 2019 and ongoing)
3. Gather audit reports for all subrecipients prior to the next audit (plan for completion by November 2019)
4. Continue training and capacity building for staff in federal subrecipient requirements and create policies and procedures around the process. Trailhead added a checklist to determine subcontractors vs. subrecipients, and added subrecipient monitoring requirements to orientations for new staff and reassigned staff who are working on federal grants.
5. Continue to refine database tracking of subrecipients including adding tracking of new processes including ask subrecipients, upon contracting, if they have or will meet the threshold for obtaining an audit under Uniform Guidance.

Sarah Lampe and Patricia Dwyer are responsible for ensuring this plan is acted upon, and have followed up with staff working to complete federal grant requirements to ensure appropriate awareness and action has been taken to effectively monitor all activities.
